

朝陽科技大學

Android 4.x 使用 802.1X 的設定方式

1. 點選手機中的設定

2. 進入設定裡面，選擇 Wi-Fi

3. 請選擇 cyut_802.1x 來進行連線

4.這裡請注意幾個地方，EAP 方法「PEAP」，階段 2 驗證「GTC」

身分請填入您的帳號/識別，若有匿名欄位請包留空白不需填入，
密碼請填入您的密碼

The screenshot shows the configuration interface for an 802.1x EAP network. The title bar at the top indicates the network name is 'cyut_802.1x'. Below the title, the '802.1x EAP' section is visible. Under 'EAP 方法', the 'PEAP' option is selected and highlighted with a red box. Under '階段 2 驗證', the 'GTC' option is selected and highlighted with a red box. There are input fields for '識別' (Identity) and '密碼' (Password). A checkbox labeled '顯示密碼' (Show Password) is present. At the bottom, there are two buttons: '取消' (Cancel) and '連線' (Connect).

5. 當您看到 **cyut_802.1x** 下方出現以連線的字樣，就表示已完成了連線設定
